

ULTRA EP 11 R – TDS

Product Name:

Ultra EP 11 R

Product description:

Ultra EP 11 R is a low viscosity, solvent and benzyl alcohol free phenalkamine curing agent designed for epoxy coating applications protecting metal and concrete substrates. It has excellent rapid cure properties, even at low temperatures, offers very good chemical resistance, and provides excellent adhesion on wet or otherwise unprepared surfaces and green concrete. Heavy duty industrial, marine service, protective, floor, and potable water contact coatings can benefit from this product's outstanding water resistance and corrosion protection.

Advantages:

- Good adhesion strength
- Corrosion resistant
- Easy to apply
- Can be used for various application
- Surface hardener

Area of usage:

- Metal and concrete surface

Application Method:

Ultra EP 11 R is usable in high solids / solvent free two part epoxy primer for surface tolerant marine, industrial maintenance, protective, and floor coatings. Good chemical resistance and suitability for contact with potable water* make this curing agent especially acceptable for concrete or metal tank linings and pipe coatings. It can be used for coating applications under cold and humid conditions, even over damp and poorly prepared surfaces. This product's fast cure and good hardness make it ideal for applications requiring fast return to service. Its ability to cure over a wide temperature range and non-critical mix ratio can bring coatings broad application latitude.

*Dependent on country regulations

Packing:

5 ltr.

Technical Data:

Appearance	Brown liquid
Shelf life	12 months
Viscosity at 25% c	900 cps
Volatile loss	3.7%

Coverage: 40-60* sq.mtr

*coverage depends on surface condition

Corporate office:

ULTRA GREEN CONSTRUCTION CHEMICALS

#42, 2nd main road

Palace Guttahalli main road
